### **DULLES SOUTH MULTI-PURPOSE FACILITY FUNDING APPROVED**

Yesterday, voters in Loudoun County approved the Public Facilities Bond Referendum seeking General Obligation Bonds to finance the building of several County capital projects. Included in the referendum was funding for \$9 million to build the Dulles South Multi-Purpose Facility, which will replace the ailing Arcola Community Center. Supervisor Stephen J. Snow (R-Dulles) was thrilled that voters approved the financing of the Multi-Purpose Facility. "This is a great day for the Dulles Community, the citizens have spoken," Snow said. "We need services and amenities, here in Dulles South, and we need to take care of our people, especially our youth and seniors. The need for roads and services underscores the need for the County to work with the development community to acquire these roads and services."

Supervisor Snow was instrumental in getting the Multi-Purpose Facility placed on the ballot in November. Snow worked with his colleagues on the Board of Supervisors to acquire bipartisan support, increase the scope of the project, and have it built ahead of schedule. A 9,000 square foot Multi-Purpose Facility was originally placed in the County's Capital Improvement Program (CIP) in 2003 to be built in 2008 but was removed from the CIP during budget deliberations in spring 2004. Supervisor Snow fought to have it placed back in the CIP and put on the ballot for this election. The \$9 million approved by voters will expand the Multi-Purpose Facility from 9,000 square feet to 23,900 square feet. This amount includes \$3.7 million for the Architecture and Engineering of the entire 83,000 square foot facility.

Snow also thanks the many people who have worked tirelessly to make this Multi-Purpose Facility a reality, especially Charlotte Nurge, the Dulles appointee to the Commission on Aging and a long-time advocate for senior issues in the Dulles District.
